TARGET PERSONA

Home bakers and food enthusiasts aged 25–45 who are passionate about recreating authentic bakery experiences in their own kitchens, and who are motivated by limited-time, seasonal, or regionally inspired bread flavors.

VALUE PROPOSITION

General Mills will deliver a rotating collection of bakery-inspired fresh dough kits—offering sourdough, brioche, and artisan varieties—directly to consumers. Each kit includes premium, pre-measured ingredients and step-by-step instructions, ensuring that even busy home bakers can achieve bakery-quality results with ease. The lineup will feature limited-time, seasonal, and regional variants to drive excitement and encourage trial. Operational efficiency is prioritized by aligning production with anticipated demand, minimizing overstock, and supporting repeat purchases through regular kit refreshes.

BUSINESS IMPACT

This initiative targets increased incremental sales and basket size among existing customers, while attracting new, premium-oriented consumers. Limited-time offerings maximize engagement, foster repeat visits, and align supply with demand to minimize inventory risk.
